

PERSONAL ASSIST

HEALTH CARE PROVIDER

Health Watch and Health Watch Medical are looking forward to bringing to the market a new personal assist (unit) that is both a Medical alert and a GPS system. This will be able to track almost anywhere. Personal Assist Tracker is a light weight with a superior receiving sensitivity and works on fast TIFF SYSTEM, it is designed to work with many applications especially on emergency calls and SOS and GEO-fencing applications. Great to use anywhere. The other units include Teen Tracker and Lone Worker Protection. It can also work as a Vehicle tracker.

Personal assist is a powerful miniature light weight GPS locator with super sensitive receiving ability which works on GSM frequencies. Its location can be tracked real time.
